Gifted Junior Camp (4-6 years old)

Learning Objectives:

The best of our Shakespeare, Einstein and Da Vinci programmes for pre-schoolers.

Shakespeare: English Language Arts & Humanities

Einstein: Mathematical Reasoning & Science

Da Vinci: IQ stretcher, general knowledge, visual and spatial reasoning

Fees : \$700 per camp ; Early Bird : \$ 660 per camp (*All prices are not inclusive of 7% GST)

GEP Exposure English/Math & GA Camp (P3 in 2019)

Learning Objectives:

Prepares children for optimal performance in the 2019 P3 GEP 2nd round of selection. This camp will expose students to complex Math and English components to develop their critical thinking skills in non-routine & GA questions.

Overview of the topics:

Classification skills, sequencing, spatial reasoning, logic, analogies, abstract visual reasoning and mathematical reasoning

Fees : \$960 per camp ; Early Bird : \$ 900 per camp (*All prices are not inclusive of 7% GST)

Keywords Science Camp (P4/P5)

Learning Objectives:

This programme helps students to build up process and analytical skills. This Science Camp is designed for students to tackle varied question types by effectively integrating relevant scientific concepts. With a strong focus on gradually challenging free response questions types like experiment-based and application questions, students will master key techniques to answer these questions with greater accuracy.

Fees : \$480 per camp ; Early Bird : \$ 450 per camp (*All prices are not inclusive of 7% GST)

Junior Creative Writing Camp (P2/P3)

Learning Objectives:

Equip lower-primary students with planning and descriptive-writing strategies for school writing examinations and essay competitions. Students learn to craft interesting story plots and replace mundane vocabulary with creative and descriptive phrases.

Fees : \$480 per camp ; Early Bird : \$ 450 per camp (*All prices are not inclusive of 7% GST)

Senior Creative Writing Camp (P4/P5)

Learning Objectives:

Prepares students for essay competitions and PSLE composition examination. Students will learn how to develop their own unique yet realistic storylines and use advanced writing techniques to craft out descriptive essays.

Fees : \$480 per camp ; Early Bird : \$ 450 per camp (*All prices are not inclusive of 7% GST)

Junior Olympiad Math and Science Camp (P1/P2)

Learning Objectives:

Develops critical thinking skills to prepare children for future Olympiad math and science competitions and high ability tests. The camp focuses on problem-solving skills and includes a strong combination of both IQ Math and Science components to engage children in a holistic learning environment.

Fees : \$480 per camp ; Early Bird : \$ 450 per camp (*All prices are not inclusive of 7% GST)

Oral English Camp - Junior (P2/P3)

Learning Objectives:

Prepares students for picture discussion and reading components based on PSLE English Oral examination format. Students will learn techniques to improve fluency and articulation of their reading and delivery of ideas.

Fees : \$480 per camp ; Early Bird : \$ 450 per camp (*All prices are not inclusive of 7% GST)

American Math Competition-8

Learning Objectives:

Prepare students for American Math Competition - 8; Develop strategies to solve complex math problems.

AMC-8 Certificate/ Award:

Top 1% Distinguished Honor Roll; Top 5% Honor Roll; Score and ranking will be issued after the contest. Awards/ Certificates/ Medals will be given based on country's practice.

Fees : \$480 per camp ; Early Bird : \$ 450 per camp (*All prices are not inclusive of 7% GST)
